What to expect

If you are looking to be surrounded by beautiful coral & marine life everyday whilst learning new skills and helping others to develop their passion for diving, you have come to the right place.

A divemaster intership gives you the opportunity to dive everyday whilst learning new skills including dive management and supervision experience. You will learn everything from how to map a reef to filling cylinders, fixing equipment, organizing dives and rescue skills.

Your daily tasks would consist of early mornings where you arrive before the clients and help with the dive setup and preparation of gear. Paperwork for new clients along with launch sheets, stock taking and front desk assistance. Assisting instructors on courses, doing safety briefings before dives and debriefings after dives.

It is an amazing experience with so many opportunities to grow and learn not only as a diver but as a person as well. Where you are constantly surrounded by passionate people who will help guide you on your journey to become a professional diver.
